the best, most
affordable, innovative,
benefits and services
for agriculture*

Trusted

Since 1983 we've been providing health benefits to over 3 million agricultural workers through our member-sponsored health plan UABT.

● Affordable Plan Options

Our innovative plan options offer free COBRA administration, nationwide provider network, prescription drug program, vision and dental plans.

● Wellness & Prevention

All plans provide access to our six regional Health & Wellness Clinics that offer a full range of acute and episodic services to health-risk and disease management to wellness and prevention.

● Network Options

Our plans utilize the Blue Shield of California and Blue Shield National Coverage Networks. We partner with SAIN Medical to offer first-class health benefits for your workforce alongside the U.S. / Mexico border.

Reliable

Leadership, commitment and culture set us apart from other organizations. Our members can rely on us to deliver creative benefit solutions for the most complex issues our industry may be experiencing. We currently operate in California and Arizona.

Resilient

Supporting the future of agriculture is at the helm of what we do. Through our various educational and leadership programs, we invest in our members and future generations of ag leaders. Since 1989, UnitedAg has awarded over \$2.0 million in scholarships to more than 1,200 affiliated members seeking educational, post-secondary and vocational funding.
